

Major Works Surveyor – Fixflo Expert with Block Management Experience

Dear AM Surveying HR Team,

Attached are my CV and cover letter for the Major Works Surveyor role. With over a decade in property, I've managed blocks nationwide, mastered Fixflo (building a custom API for task escalation), and developed a JavaScript tool to streamline cost/legal analysis <https://inversk.com/property-calculators/> — perfect for 10-year plans. I'm the hardest working person you'll interview. Hope we can make that happen.

Best regards,

Sajid Kazmi
